Who AM I?

The journey starts here...

Our flagship 1 day motivational course, Who Am I? is the first step of the heroes journey and helps young people to improve their wellbeing and happiness and discover their authentic self.

It is a high impact course that helps students to reflect on their life choices and to celebrate and build upon what makes them truly unique. Take a look at some of our impact statistics from this past year...

86%

now feel they have a right to goals and dreams for the future

1. HOPE

81%

of students feel they could now become proud of who they are

2. CONFIDENCE

Improving mental wellbeing & happiness

in 6 hours...

3. HAPPINESS

83%

now feel more confident and hopeful for their life and their future

3 changes I am going to make...

At the end of the Who Am I day, students are encouraged to write down 3 changes they are going to make for themselves. This keepsake serves as a great visual reminder and starting point for these changes.

4. RELATIONSHIPS

89%

of students take time to understand other people without judging them.

5. EMPLOYABILITY

86%

of students can now feel more determined to develop necessary workplace skills.

My dreams are...

By writing down their dreams, it helps the young people to understand that making positive changes will help them get closer to achieving their goals.

the **HEROES** journey

Empowering young people to make positive change in their own lives, society and the world.

As the number one choice of externally provided leadership and volunteering programmes in UK schools, we have inspired over 35,000 young people to become heroes.

The heroes journey provides leadership, mentoring and volunteer training experience which is underpinned by positive psychology and uses a unique theory of change model. This helps young people to tackle many of the barriers to success that they face both in and outside of school.

It inspires them to be the positive change they wish to see in their schools and communities and also supports and develops hope, confidence, happiness, relationships and employability skills to, ultimately, improve their life chances.

Survive or Thrive...?

the HEROES journey

Supporting Heroes to
make positive change

Leadership & Volunteering starts here...

At the end of our introductory, high impact Who Am I? day, young people will have the chance to volunteer to become heroes. This is where student leadership starts as they challenge themselves on a 3 day course to co-deliver the same experience that they had to their younger peers.

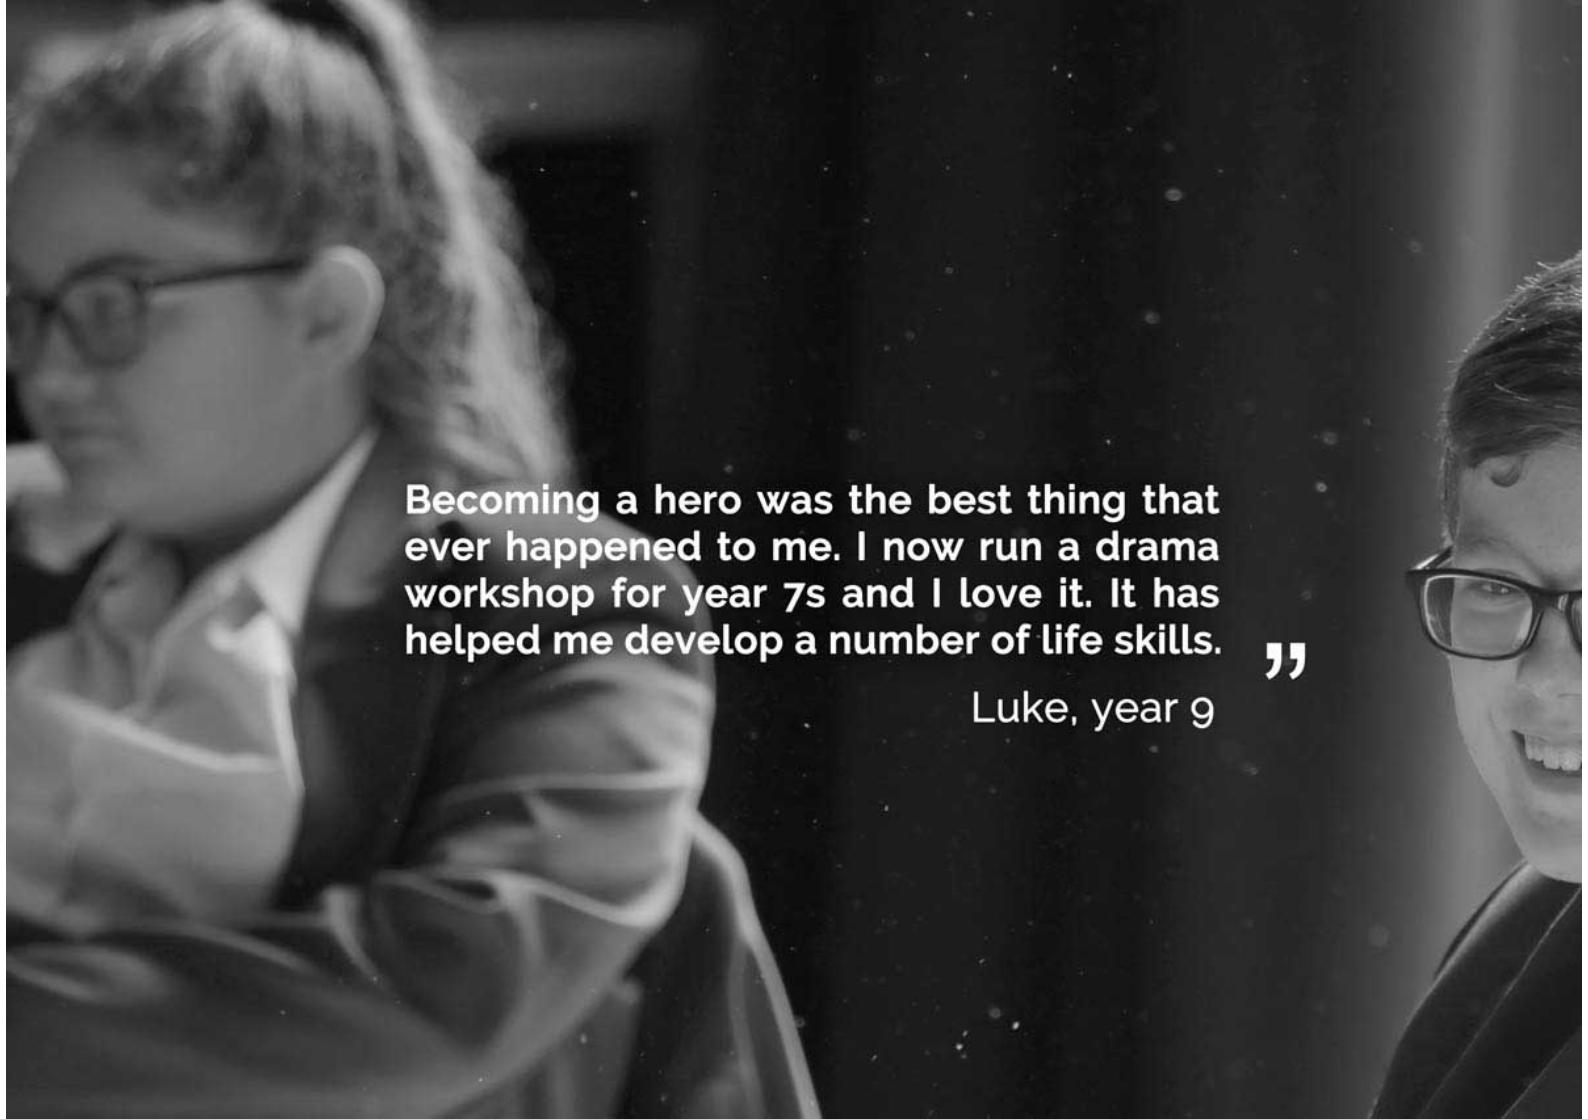

The Heroes Journey involves a young person joining Team Heroes, a group of students in their school who are committed to becoming good role models, 'heroes' to the younger students and within their educational community. As a team they will learn together and support each other to develop essential life skills.

The Heroes Foundation is an exciting new organisation which will provide our volunteer heroes with an infrastructure to support them and which will promote wider and more extensive opportunities as they go through and beyond school.

Through a variety of extended courses and experiences the Heroes Foundation will build on the initial humanutopia experience by sustaining and supporting both individual heroes and also teams of heroes in humanutopia partner schools.

Through participating in these experiences in their schools and communities and committing to a designated number of volunteering hours, heroes will unlock a variety of exciting opportunities to help them build a brighter future for themselves.

Becoming a hero was the best thing that ever happened to me. I now run a drama workshop for year 7s and I love it. It has helped me develop a number of life skills. ”

Luke, year 9

12,825 hours
volunteered

Sustainability

through ongoing support

by **1,034**
heroes

through ongoing support

Now in it's second year running, our ongoing support programme ensures that the momentum of the key concepts from day one continues and that the heroes are fully supported in their goals.

We have three levels for our Ongoing Support Programme (OSP) which is designed to support schools in sustaining our impact and building an independent Student Leadership Programme. We offer our Bronze, Silver and Gold OSP to all schools who have trained Heroes and looking for extra support in keeping the momentum going. We have had the pleasure of working with 29 committed schools who have joined the programme to utilise their Heroes and run projects to enhance their students' Hope, Confidence, Happiness, Relationships and Employability. It's great to work with Heroes and staff that are passionate about helping others, sustaining our work and developing themselves throughout.

I like the heroes because when you're struggling with something, they help you learn

”

Amaya, year 2

St Mary's Catholic Academy, Blackpool (BEBCMAT) – Gold

Katie first met with the lead, Phil, in July 2017 where they mapped out a plan for 2017/18 academic year. They have successfully worked through the OSP plan with Lead Heroes running four projects. The Icon group have been working with Year 7, running 1 hour workshops during PHSE where Heroes planned a workshop and worked through a rotation to meet all of Year 7. The Icon session were full of games, written and interactive activities to revisit our icons to support Year 7 in life at school. The Peer Mentoring group met with Year 7 on a fortnightly basis to complete our Peer Mentoring projects and offer any support to their mentee where required. Each Peer Mentor worked hard to support Year 7 by sharing their own experience of life at St Mary's Catholic Academy. Heroes have also been working alongside the Maths and English team supporting students with their homework and revision. All Heroes have taken the responsibility to work as independently as possible and use their strengths to guide Year 7 where they can. Phil is extremely passionate about our work and the Heroes programme which has made working there a great pleasure.

Gateacre School, Liverpool - Silver

Gateacre Lead Heroes are a very efficient and keen group of individuals who drive their team of Heroes in the best possible way. It has been great to see such an amazing group of Heroes do so much with the passion and determination they have. Mariam was passionate for Heroes to run our HU Peer Mentoring sessions and target the whole year group which they did to a high standard. Heroes have also been running a drama club for younger students at lunch time, creating a space for the students to go create independently on their lunch breaks. The Lead Heroes joined in with our 'Heroes Helping the Homeless' project for International Volunteering day, where they successfully collected unwanted clothing for the homeless in Liverpool. Going into the summer term Heroes have planned and delivered Icon sessions to Year 8 which allows for Heroes to revisit our programme and guide Year 8 into setting some targets for their new school year. Heroes were given their own little office, next to the canteen area, where they spend every lunch and break time offering an open door drop-in service to all students. The Heroes are a Dream Team that every school needs.

"I've been really impressed by how much the heroes have flourished. Katie's support has been invaluable"

Miriam Ferraiolo, HU Lead & English Teacher
Pupil Premium Champion, Gateacre School

Roodend Primary School, Birmingham - Silver

Having supported Jon for a year sustaining our programme with Year 6 and 2, Katie first met with Year 6 Heroes in October 2017 where she ran a workshop to prepare them to become confident Peer Mentors. Since then Year 6 have regularly met with Year 2 and completed our Peer Mentoring activities. Once Heroes built positive relationships and shared their experiences with Year 2, they became confident enough to plan and deliver their own mini Icon sessions to them. Katie returned in March where she supported Heroes to plan interactive Icon sessions for Year 2 where they worked in groups of 4 on a weekly basis. Heroes at Roodend have become positive role models and independently supported Year 2 through life at Roodend Academy. Jon is a great Lead Teacher who supports Heroes in every which way he can.

“You can really see the students' confidence levels increase”

Jon Hadley, HU Lead, Deputy Headteacher and Year 6 Teacher

Tavistock – Silver

Tavistock college is a school based in Devon where Heroes are keen to volunteer and support each other as much as possible. We have been working with three Lead Teachers there: Tristian, Sophie and Nick on three projects since April. Tristian has taken the Lead on a Year 6 transition project which involved preparing Heroes to be positive role models when representing Tavistock College during primary visits, parents evenings and Year 6 transition days. Sophie works closely alongside a group of Heroes who have taken on the role Peer Mentors for Year 7 students. Katie ran a short workshop to support Heroes in their 1:1 sessions with Year 7 to help them offer advice and guidance where they can in school. Nick oversees the group who run Icon workshops. The Icon group are revisiting the hu icons, reflecting on changes they have made, and changes they are still to make with Year 7. Each project is supported by two-five Sixth form students who have expressed an interest in supporting a Student Leadership Team as well as two Lead Heroes who are responsible for the administration and overall organisation of the Heroes team to be as independent as possible. All students and staff are so welcoming which gives us excitement for the next year or so to unfold.

If you would like to get involved with our Ongoing Support Programme please drop Katie an email at katie@humanutopia.com

the
HEROES
journey

Run by young people for young people...

the
HEROES
journey

our 5 day courses introduce peer mentoring and allows your students to continue to engage with younger year groups as part of their heroes journey. Longer term partnerships and further training with the students mean they can run their very own HARmony summer transition camp for the new year 7s entering the school. With a very successful track record of our partner schools running 100 camps in the past 14 years, these are a huge hit with the heroes and new year 7s.

10 *HARmony* **CAMPs** run by **511** heroes for **1,400** year 7s

Once again we would like to especially thank the huge contribution of Capital Hair and Beauty, who have sponsored the camps over the last five years by covering all costs associated with providing thousands of heroes with HARmony camp t-shirts. These t-shirts have become iconic amongst HARmony camp and the heroes and they wear them with pride knowing that they are something they have worked really hard for.

Hamish Vans Agnew
Co-founder, Capital Hair & Beauty

A group of students are sitting in a circle on a gymnasium floor, holding hands. They are wearing white t-shirts with blue text and dark blue jackets. The background shows a wooden wall with a clock and a whiteboard. The text is overlaid on the image.

Thanks to the humanutopia team, I made a change for the better and made it to the start of secondary school happy being who I am and I can't thank the whole team enough.

”
year 7 student

hu

Going gobal...

Taking our life-changing programme beyond the UK was always an ambition of ours, as many of the problems and challenges that young people face exist in schools globally. This year we were excited to return to Colombia for our third year in partnership with CoSchool, as 5 of our team flew out to deliver our life-changing courses. We also created sustainable partnerships delivering our courses in Holland and have created opportunities in USA, India and South Africa. So... watch this international space...!

90% of students now feel more motivated and enthusiastic about life

"Through this programme, children are realising more where they stand and what these values will be in the near future"

Arnold Koot, Director - Wolfert Bilingual

One team one dream

Meet some of our newest team members...

hu

Georgie

“ I joined Humanutopia by pure chance really; I was incredibly lucky that they visited my sister's year group at my old school. She came home and told me all about the day so I was keen to find out more about it. I'd always wanted to help and work with young people. I just didn't really know how to get into it, so this seemed like a perfect opportunity. My week on the road made me fall in love with the company and question my life and choices, even though I hadn't experienced the day myself, so that for me, showed how impactful the programme is. The entire ethos of putting people first and supporting others is something I believe this world is lacking and I wanted to become part of team that values something so incredibly important. ”

Iván

“ When all your life you have asked yourself how to provide a more humane education for the young people of this world, and you find a company that has done that for 14 years successfully, you don't think twice: you want to be there. If you also realise that within that company work the most committed, creative and funny people as a family, then you decide to give your 100% to grow there. Humanutopia is an incredible space to learn and build amazing things, a place where I have been able to put my Colombian flavour at the service of the young people of the United Kingdom. ”

Stevie

“ I experienced my first ever humanutopia day when I was 14 and in year 10. I was somebody who lacked confidence, rarely made decisions for my benefit and was becoming a follower. HU made me realise I needed to make changes to benefit me and my future. I was so thankful for the help the company gave me I wanted to give something back. I wanted to have the same impact on young people as they had on me. I wasn't sure if I'd be able to do it but over the last 2 and a half years I feel I've progressed not just as an HU Team member but as a human being. It's such a privilege to meet so many young people up and down the country with the desire to want to help them or understand people better. It's crazy now to look back to 7 years ago when I had my day and think of the positive journey I've been on thanks to the amazing young people I've met and the people I get to work it. It's gotten me to where I am today. ”

**Over half our team
are former heroes**

The leader always sets the trail for others to follow

LEADERSHIP

Multi Academy Trusts

We would like to take this opportunity to thank the following multi-academy trusts that have helped us to deliver our programmes to more and more young people year after year. We greatly value our partnerships and believe in the positive impact we can achieve when working together.

**GREENWOOD
ACADEMIES TRUST**

"The vision for this partnership is to, year on year, build on our students build on our students; skills to become leaders in the future. We want to empower our young people in this trust to become whatever they want to be."

Illuminating Learning

The SSAT logo consists of the lowercase letters 'ssat' in a white, sans-serif font, centered within a solid red square.

We are hugely proud of our association with the SSAT, the Schools, Students and Teachers network, which spans over 14 years. We would like to thank all the staff and leaders in the SSAT, past and present, who have believed in the impact of our work, sharing their inspirational network of young people and inspirational leaders. It was a privilege and pleasure to be lead conference partner at the conference last year to celebrate all that we have achieved together.

In the build up to the conference and over the two days in Manchester, we worked together with the SSAT to consider what illuminating learning means from young people's perspective. Our programme director Graham Moore opened the conference with a provocative mainstage pitch – how will this conference change how we think, and change what we do? 'How can we really get young people to thrive?' asked Graham, because as teachers, you really do have the power to save lives. Graham was joined by ten students from Manchester Communications Academy, who each reflected on what illuminating learning meant to them. The impact of their words was powerful. How can we truly illuminate learning if we don't listen to the learners themselves?

Ongoing impact – "In the six months since the conference, we know that delegates are still being challenged by Graham and the students' words – and that the commitments they made to themselves that day in Manchester, will continue to impact young people's lives in the future. – Tom Middlehurst, SSAT

@humanutopia

It's not everyday your company gets to sponsor a national conference! 14 years ago when we started this journey we never imagined that humanutopia would make such a big difference #SSATNC17 #IlluminatingLearning

humanutopia
Putting People First.

ssat

@SSAT

Graham Moore of @humanutopia returns to the main stage & invites our audience to express what they will do differently as a result of the presentations they've heard today, particularly after the plea to put wellbeing at the heart of school! #SSATNC17

@pjd_paul

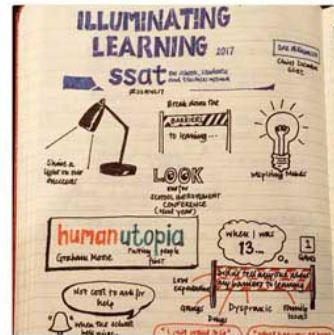

Really great food for thought at #SSATNC17 from Sue Williamson and Graham Moore @humanutopia

@graham_pullen

Having experienced @humanutopia first hand in school with my year 9s, it was great to hear from Graham Moore at the @ssat national conference. Inspiring man with an inspiring mission. #SSATLLP #ssatnc17

@mcr_central

We're delighted to be hosting #SSATNC17 this week, bringing hundreds of students, teachers and support staff together for two days of educational insights!

@humanutopia

Year 10 from ManchesterCommunicationAcademy absolutely stole the show at #SSATNC17 @ssat

@jsibbald

These people rock!
Seen their work in action at Albion Academy in Salford.

Educational Partners

"Our first meeting with Humanutopia was in November 2017 with a view to commissioning provision that addressed emotional Health and Wellbeing. This was an agenda that had been highlighted by a number of our local target schools who were keen to focus on OFSTED judgements around personal development, behaviour and welfare. Additionally, one of our primary stakeholders is a lead school in the local Emotionally Healthy Schools Programme which added further focus to this important aspect of our overall delivery.

As a partner Hub with the Higher Horizons NCOP consortium, we see Emotional Health and Wellbeing as vital components to the development of young people. A focus on this aspect ensures that the students we work with are not only better equipped to perform in examinations, but also possess the "soft skills" needed to play a more positive and productive role within their immediate social groups and wider communities.

With the above ethos in mind, we planned a highly successful Schools Conference in late May 2018 which was closely followed by a number of days booked in by those schools that had attended the initial conference. The level of demand for humanutopia's provision far surpassed our expectations and by July 2018 the team had delivered over 17 sessions in 5 local schools. An achievement that speaks for itself in terms of the provisions popularity.

In time we have worked with humanutopia, they've delivered a consistently powerful and uniquely immersive experience for our students. Their programmes provide an opportunity for our NCOP young people to effectively review and evaluate themselves as individuals as well as focus on their plans for the future. We see provision of this type as being a fundamental building block in an overall programme of support and guidance that will ultimately raise aspirations allow our young people to realise their potential."

Si Price - Higher Horizons + NCOP Chester Hub Manager

A royal day out...

Getting invited to the Queen's annual royal garden party is not an everyday occurrence; but that is exactly what happened when our company directors were honoured to be invited to join Her Majesty at Buckingham Palace on 15th May 2018 for Service to Education.

INVITATION TO A ROYAL GARDEN PARTY

I am delighted to inform you that you are to be nominated by the Department for Education to attend a Royal Garden Party at Buckingham Palace in 2018, as a mark of our thanks for your services to education. This invitation extends to you and one additional adult guest.

@humanutopia
14 years on and humanutopia finally makes it to Buckingham Palace.

Supported by over **135** business volunteers

Changing Futures

Our developing partnership with Capital One has seen a successful programme run into it's 3rd year, teaming young people with business mentors from Capital One to help them to develop essential life skills and inspire them to make positive changes in their lives.

It's a highly impactful programme that tackles many of the problems that young people face head on and gives them the opportunity to be challenged and work with their mentors on 5 seperate conference days throughout the year. This allows the young people to learn first hand from and build trust with their mentor, put newly developed skills into practice and to reflect on their progress each time they meet.

We would like to thank the team at Capital One for their ongoing support and we very much look forward to continuing to make a difference to these young people in the future.

"Changing Futures is an integral part of the Corporate Responsibility programme at Capital One. Our partnership has highlighted the great influence our associates can have in helping local students become the best version of themselves, and we look forward to continuing our relationship with humanutopia in to the future."

Rupert MacInnes, Capital One VP, External Affairs

Bridging the Gap to Success

Humanutopia and Business in the Community have enjoyed a long term partnership working together successfully to run an inspirational programme for young people called Bridging the Gap to Success which is funded by the Ford Britain Trust. Last year we ran two high-impact events in Stoke-on-Trent and East London involving many local secondary school students. Business volunteers from the local communities helped to inspire students by leading them through a series of interactive and engaging activities to improve their confidence, happiness and raise their aspirations. The event challenged students to be honest about what they wanted for their future, helping them to understand their own individual qualities and the qualities required to be successful in business and the workplace. We would like to thank Business in the Community for all their support over the past year.

COMMUNITY**

Premier League Primary All Stars

Welcoming year 5s in to Brighton Albion American Express stadium, we partnered with Albion in the Community to deliver our programme to pupils from local primary schools. We hope to continue this partnership and are very excited to see the developments in the coming year.

"We are fortunate to be working with humanutopia to deliver a series of conferences as part of our Premier League Primary Stars project, reaching hundreds of primary school children across Sussex. There is nothing more important than teaching young people to be honest, to respect others and to take responsibility for their own actions and behaviours and we believe there is no better partner to do this with than HU."

Paul Williams - Schools Manager, Albion in the Community

Hogan Lovells

We would also like to extend our heartfelt thanks to Hogan Lovells who have provided valuable support that has allowed us to run Who Am I days in London schools and also to support our charity The Heroes Foundation. We are hugely grateful for all of the belief and support from our corporate partners and believe that we have achieved more than we ever could have imagined and will continue to help empower young people to do the same.
